THE FIRST NATIONAL CONFERENCE ON CHEMISTRY AND ENVIRONMENT

FNCCE

December 15th 2025

Objectives

Chemistry is at the heart of many advances that shape our world: from health to the environment, from energy to the materials of the future. It drives us to understand, innovate, and push boundaries.

The first conference on Chemistry will be dedicated to explore the latest advancements and research in the field of Chemistry.

The sessions are designed to cover a broad spectrum of topics, from Green chemistry, to innovative applications.

This meeting aims to create a space for exchange, reflection, and sharing among researchers, educators, students, and professionals.
